VAISHNAVI V

7483787779 | atvaishnaviv@gmail.com | linkedin.com/in/at-vaishnaviv | github.com/at-vaishnavi

OBJECTIVE

MCA student with hands-on experience in Python, Java, SQL, and software development through projects and internship experience. Familiar with object-oriented programming, database fundamentals, and application development. Seeking a Software Engineer role to apply programming skills and build reliable software solutions.

EDUCATION

Master of Computer Applications (MCA)
RV Institute of Technology and Management | VTU, Bangalore
CGPA: 9.28 | Full Time
Expected Graduation: June 2027

Bachelor of Science (Computer Science)
Surana College Autonomous | Bangalore University
CGPA: 9.3 | Aug 2022 - May 2025 | Full Time

EXPERIENCE

Dyashin Technosoft - Frontend Development Intern | Jan 2025 - Mar 2025
- Developed responsive web interfaces using React.js, JavaScript, HTML, and CSS.
- Built 10+ reusable UI components to improve consistency and code reusability.
- Worked on frontend layouts and interactive elements to support usability across different screen sizes.

PROJECTS

AI-Based Urban Mobility and Demand Intelligence System | Ongoing
- Developing an AI-based mobile application for urban traffic and congestion analysis.
- Analysing traffic data to identify congestion patterns and high-traffic areas.
- Working on demand prediction and What-If Analysis to evaluate different traffic scenarios.
- Aiming to support data-driven mobility planning through predictive insights.

Swasthya AI – Intelligent Medical Chatbot | May 2026 - Jul 2026
Technologies Used: *Python, Streamlit, NLP, Meta Llama 3.1, Hugging Face API, SQLite*
- Developed a Python-based multilingual healthcare chatbot using Meta Llama 3.1.
- Used SQLite for application data management and implemented nearby hospital recommendations.
- Added emergency SOS notifications and automated prescription PDF generation.

Research Hub Portal | Nov 2025 - Jan 2026
Technologies Used: *AngularJS, JavaScript, HTML, CSS3*
- Developed a frontend interface for browsing and viewing research publications using AngularJS.
- Created demonstrations of text similarity and AI-generated text identification.

SKILLS

Technical Skills
- **Programming Languages:** Python, Java, JavaScript
- **Core Computer Science:** OOP, DBMS, Operating Systems, Computer Networks
- **Databases:** SQL, SQLite
- **Frontend:** HTML5, CSS3, React.js, AngularJS
- **Tools:** GitHub, VS Code

Soft Skills
- Problem Solving
- Analytical Thinking
- Team Collaboration
- Adaptability
- Quick Learning

CERTIFICATIONS & ACHIEVEMENTS

- Java Basics — HackerRank
- Python 101 for Data Science — IBM Cognitive Class
- Data Science & Analytics — HP LIFE
- Networking Basics — Cisco Networking Academy
- Introduction to MongoDB — MongoDB Learning Path
- Presented research papers at academic conferences and college-level events on literature, culture, and governance.
