SUMMARY

Pursuing Master of Computer Applications (MCA) with skills in Java, Python, React.js, JavaScript, HTML, CSS, and SQL. Hands-on experience in web development through projects and internship work. Seeking an entry-level software development role to apply technical skills, contribute to innovative projects, and grow professionally.

EDUCATION

Master of Computer Applications (MCA)

RV Institute of Technology and Management | VTU, Bangalore

CGPA: 9.28

Expected Graduation: June 2027

Bachelor of Science (Computer Science)

Surana College Autonomous | Bangalore University

CGPA: 9.3 | Aug 2022 - May 2025

EXPERIENCE

Dyashin Technosoft - Frontend Development Intern

Jan 2025 - Mar 2025

- Developed responsive web applications using React.js, JavaScript, HTML, and CSS, ensuring compatibility across multiple devices and screen sizes
- Designed and integrated 10+ reusable UI components, improving frontend consistency and code reusability
- Collaborated with developers to implement frontend features and deliver a seamless user experience
- Utilized GitHub for code management and team collaboration during development.

PROJECTS

Swasthya AI – Intelligent Medical Chatbot | May 2026 - Jul 2026

Technologies Used: Python, Streamlit, NLP, Meta Llama 3.1, Hugging Face API, SQLite, REST APIs

- Developed an AI-powered healthcare chatbot using NLP and Large Language Models (LLMs) to provide preliminary symptom-based health guidance.
- Integrated features such as multilingual conversations, nearby hospital recommendations, emergency SOS messaging, and prescription PDF generation.
- Implemented API integration and database management using Hugging Face Inference API and SQLite for intelligent responses and data handling.

Research Hub Portal | Nov 2025 - Jan 2026

Technologies Used: AngularJS, JavaScript, HTML, CSS3

- Designed a web-based research publication portal for managing academic content.
- Integrated dynamic content rendering and structured navigation using AngularJS.
- Improved accessibility and responsiveness across multiple screen sizes and devices.

SKILLS

Technical Skills

- Languages: Java, Python
- Frontend: HTML5, CSS3, React.js, AngularJS
- Databases: SQL
- Tools: GitHub, VS Code, Canva
- Core Subjects: OOP, DBMS, Operating Systems, Computer Networks

Soft Skills

- Problem Solving
- Analytical Thinking
- Team Collaboration
- Adaptability
- Quick Learning

CERTIFICATIONS & ACHIEVEMENTS

- IBM Cognitive Class – Python 101 for Data Science
- HP Life – Data Science & Analytics
- Cisco Networking Academy – Networking Basics
- MongoDB Learning Path – Introduction to MongoDB
- Presented research papers at academic events and conferences, contributing to discussions on social and literary studies.
